

RAVI RANJAN SINGH

Senior Frontend Engineer | UI Lead — Angular, TypeScript, RxJS, JavaScript

Pune, India | +91-8448116765 | rab.ranjan@gmail.com | www.linkedin.com/in/rabranjan | www.raviranjansingh.in

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 15 years of experience designing and building enterprise web applications, with strong, hands-on expertise in Angular (including Angular 20), TypeScript, JavaScript, and RxJS. Proven track record re-architecting legacy UI platforms into modern Angular applications from the ground up, alongside deep experience with HTML5, CSS3/Flexbox, and component-driven UI design. Comfortable owning frontend architecture end-to-end — from requirements and UI development to build, release, and production support — while also mentoring and leading engineering teams.

CORE SKILLS

Angular (Angular 20), TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3 / Flexbox, jQuery, Sencha Ext JS
REST / JSON APIs, Git / GitHub / Bitbucket, Agile / Scrum, JIRA, CI/CD, Requirement Analysis, Estimation, Mentoring

PROFESSIONAL EXPERIENCE

Technology Lead — Iris Software Pvt Ltd (Banking Domain — Enterprise Application) *Sep 2019 – Present*

- Led frontend re-architecture of a legacy banking risk-management platform, rebuilding core modules from scratch in Angular 20 with TypeScript and RxJS-based state and data flow.
- Own UI development end-to-end using Angular, TypeScript, JavaScript, and Flexbox/CSS3, while supporting Java Spring MVC and Oracle on the backend.
- Drive requirement analysis, task estimation, build/release process, and post-release production support.
- Manage build pipeline using GitHub and internal CI tooling; mentor team members on Angular best practices.

Lead Engineer — Harman Connected Services

Sep 2017 – Aug 2019

- Led UI development using Sencha Ext JS for connected-vehicle enterprise applications.
- Owned requirement reviews, sprint planning, and effort estimation; performed code reviews across the team.

Senior Software Engineer — Celestial Systems Pvt Ltd

Apr 2016 – Sep 2017

- Delivered UI development using JavaScript and the Ext JS framework; mentored junior team members.

Software Engineering Sr. Analyst — Accenture

Jan 2016 – Mar 2016

- Bench / transition period between engagements.

Software Engineer — Vayavya Labs Pvt Ltd

Mar 2013 – Jan 2016

- Developed and maintained web, Windows, and scripting-based tools across Windows and Linux platforms.

Software Developer — Asclepius Consulting and Technologies Pvt Ltd

Sep 2010 – Oct 2012

- Built and maintained product applications; gathered requirements, delivered training, and supported customer demos.

KEY PROJECTS

Oversight PMAC UI

- Re-engineered a legacy risk-oversight platform (originally built in 2020) into a modern Angular 20 application, developed from scratch, supporting Global Consumer Credit and Fraud Risk Policy (GCCFRP) workflows.
- Built key modules: File Upload, Calendar Maintenance, Data Version Management, Calculation Editor, Scheduler, and Reporting.
- Delivered portfolio monitoring, credit risk rating, and credit change log reporting using Angular and TypeScript.

Reference Data Editor

- Rebuilt an administrative reference-data management application from scratch using Angular 20, replacing a 2020-era legacy platform.
- Implemented CRUD operations, data validation/transformation, inline editing, and bulk update capabilities.

EDUCATION

MCA — Bangalore University

B.Sc — Ranchi University

LANGUAGES

English, Hindi
