15 Years Experience

Frontend / UI Developer

KEY SKILLS

- Angular (Angular 20)
- TypeScript
- JavaScript (ES6+)
- RxJS
- HTML5
- CSS3 / Flexbox
- jQuery
- Sencha Ext JS
- REST / JSON APIs
- Git / GitHub / Bitbucket
- Agile / Scrum
- JIRA
- CI/CD

EDUCATION

MCA, Bangalore University
B.Sc, Ranchi University

LANGUAGES

English
Hindi

PROFILE SUMMARY

Frontend-focused Full Stack Developer with 15 years of experience designing and building enterprise web applications, with strong, hands-on expertise in Angular (including Angular 20), TypeScript, JavaScript, and RxJS. Proven track record re-architecting legacy UI platforms into modern Angular applications from the ground up, alongside deep experience with HTML5, CSS3/Flexbox, and component-driven UI design. Comfortable owning frontend architecture end-to-end — from requirements and UI development to build, release, and production support — while also mentoring and leading engineering teams.

WORK EXPERIENCE

Technology Lead

Sep 2019 - Present

Iris Software Pvt Ltd • Banking Domain — Enterprise Application

- Led frontend re-architecture of a legacy banking risk-management platform, rebuilding core modules from scratch in Angular 20 with TypeScript and RxJS-based state and data flow.
- Own UI development end-to-end using Angular, TypeScript, JavaScript, and Flexbox/CSS3, while supporting Java Spring MVC and Oracle on the backend.
- Drive requirement analysis, task estimation, build/release process, and post-release production support.
- Manage build pipeline using GitHub and internal CI tooling; mentor team members on Angular best practices.

Lead Engineer

Sep 2017 - Aug 2019

Harman Connected Services

- Led UI development using Sencha Ext JS for connected-vehicle enterprise applications.
- Owned requirement reviews, sprint planning, and effort estimation; performed code reviews across the team.

Senior Software Engineer

Apr 2016 - Sep 2017

Celestial Systems Pvt Ltd

- Delivered UI development using JavaScript and the Ext JS framework; mentored junior team members.

Software Engineering Sr. Analyst

Jan 2016 - Mar 2016

Accenture

- Bench / transition period between engagements.

Software Engineer

Mar 2013 - Jan 2016

Vayavya Labs Pvt Ltd

- Developed and maintained web, Windows, and scripting-based tools across Windows and Linux platforms.

Software Developer

Sep 2010 - Oct 2012

Asclepius Consulting and Technologies Pvt Ltd

- Built and maintained product applications; gathered requirements, delivered training, and supported customer demos.

KEY PROJECTS

Oversight PMAC UI

- Re-engineered a legacy risk-oversight platform (originally built in 2020) into a modern Angular 20 application, developed from scratch, supporting Global Consumer Credit and Fraud Risk Policy (GCCFRP) workflows.
- Built key modules: File Upload, Calendar Maintenance, Data Version Management, Calculation Editor, Scheduler, and Reporting.
- Delivered portfolio monitoring, credit risk rating, and credit change log reporting using Angular and TypeScript.

Reference Data Editor

- Rebuilt an administrative reference-data management application from scratch using Angular 20, replacing a 2020-era legacy platform.
- Implemented CRUD operations, data validation/transformation, inline editing, and bulk update capabilities.
